Autumn 1 2026

English

In English, the children will use Stone Age Boy by Satoshi Kitamura to inspire their writing. They will learn how to write a diary entry, retelling the boy's exciting experiences in the Stone Age building understanding of genre features and writing skills to create their own piece of work.

Maths

In Maths, the children will continue to develop their confidence with addition and subtraction, particularly when calculations cross 10, and build fluency with key number facts. They will explore numbers up to 1,000, developing their understanding of place value, partitioning, number lines and counting in tens and hundreds. Children will also learn to tell and understand time, applying their number skills to practical problems.

Science

Our Science topic is States of Matter. Children will explore solids, liquids and gases and learn how materials can change from one state to another. They will investigate processes such as melting and freezing through practical activities and observations.

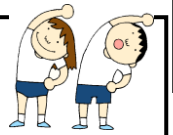
History

In History, we will investigate the question "Would you prefer to have lived in the Stone Age, Bronze Age or Iron Age?" Children will explore how life in Britain changed, including homes, tools, food and everyday life, and use evidence to compare the three periods.

Art

In Art, the children will focus on developing their drawing skills. They will explore different drawing techniques and learn how to use line, shape, tone and texture effectively. Children will have opportunities to experiment, practise new techniques and apply their developing skills to their own artwork

P.E.



In PE, the children will explore dance, developing their movement, coordination and teamwork as they work together to create a performance. They will also develop the key skills of tag rugby, before applying what they have learnt to exciting game situations.

R.E and P.S.H.R.E

In R.E we explore the question "What is it like to follow C
Children will learn about
beliefs, consider how the
influence the way Christians live and respectfully discuss different beliefs and viewpoints.

Our P.S.H.R.E. learning will focus on Families and Relationships. Children will explore positive relationships, families, friendships, respect and how we can communicate positively with others.

French

In French, the children will begin with exploring French greetings. They will practice greeting others, introducing themselves and responding to simple questions, developing confidence in speaking and listening.

Music

In Music, the children will explore music from South Africa. They will develop their skills in listening, performing and playing together, learning about rhythm and using instruments to create and perform music as a group.

Computing

In Computing, our topic is Sound Stories. Children will explore how technology can be used to record, create and combine sounds, developing their digital skills while using sound creatively to communicate ideas and tell a story.
